# Leonardo KA1 Vocational Education Training Project «Mediterraneo Park» **MALTA**

## the project

The Mediterraneo Park is a Marine Park with dolphins, sea lions, reptiles and birds.

Trainees will be working alongside fulltime experienced staff to help run the park primarily concentrating on the upkeep and welfare of the hosted animals.

### The tasks of the trainee are:

- Support staff in the birds and reptiles department.
- Cleaning cages, ensuring the comfort and safety of the birds and reptiles.
- Preparation of animals' diet and feeding them.
- Participating in the park presentations and public speaking
- Supporting staff in the bird and reptiles presentations to the general public and school groups.

## accommodation and meals

Trainees will be supplied with company uniform items which must be worn correctly and taken care of.

You will get a 50% discount at the park restaurant.

The park is located in a residential area summer resort and is easily reached with public transport.

## the project place Malta

The history of Malta has been shaped by its strategic location and perfect harbour setting. Malta has a very rich history. From the ancient Carthaginians to the Normans and the French, all the major forces in history have ruled Malta at some point. The hand of British rule touched Malta when they ousted the

French in the early 1800s and still the majority of people speak English. During the time of British rule the Maltese had their fill of being governed and began to fight for independence. Their plea for political freedom was only granted in 1964 and soon after, it became a republic.

## Location
