# Turing project in Telearuba N.V. **ARUBA**

## the project

Telearuba is the national tv company in Aruba, we provide content for 3 different channels, Telearuba (local), Nos Isla TV (local historical) and Arubatv (tourist channel in English and Spanish).

The project would consist in assisting in creating content (pre-

production, scouting, filming, editing etc.) depending on the qualifications of the candidate.

The content could be geared for example on volunteer work on the island on issues that impact the island (child care, elderly, animal care, etc).

## accommodation and meals

Trainees will live in a shared house with other international participants. Rooms will be shared for trainee groups.

Trainees will receive a monthly pocket money as well as a food allowance to be able to buy food and household necessities either individually or as a group.

The accommodation is well located, 5 minutes walk from a local beach and food shop and with all the appliances and

equipment needed for self-catering and learning to cook the local food.

There are 2 shared cars and 2 bikes which can be used by trainees, it is recommended for this project trainees are competent drivers. There is a washing machine and wifi at the house. Trainees are responsible for maintenance of the garden and weekly cleaning of the house.

## the project place

Pos Chiquito where trainees live is a local community towards the south of the island, serviced with a supermarket, laundrette, snack-van and DIY stores for household necessities. The main tourist attractions are in the North of the island around Palm Beach and Noord where there is also a large supermarket (Superfoods) worth the

drive for a weekly shop.

San Nicolas has been converted from a “Ghost Town” into the “Street Art Capital of the Caribbean” mentioned by forbes. It is the most authentic part of the Island and guess what? ArtisA are the creators of all the street art!
