

EVERYTHING IS
POSSIBLE®

Turing project at FeelSound Studio ITALY

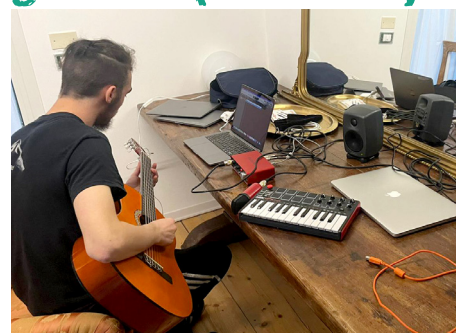

the project - short (2 weeks) and long term (1 month)

FeelSound Studios is a welcoming hub of music rehearsal rooms with the added value of its own recording studio in the complex, where musicians can perform and record their masterpieces in a cosy, professional environment.

Our sound engineer is also an established game music

composer and sound designer, who will be pleased to share his experience on various subjects, including music production, interactive music for video games, sound effects design and radio podcasts. Your role at FeelSound Studios will be to help with these activities and learn a few basic principles of routing in a recording studio.

accommodation and meals

Groups will be accommodated in a large apartment and individual trainees in a local accommodation.

Trainees will be provided with bicycles to move around Pesaro – which has an excellent cycle network – the city centre can be reached by bike in less than 10 minutes.
